FIGHT WAR AND HUNGER! Y.C.I. CALL

Appeal for a United Front Against the Bosses' Drive

DEMONSTRATE ON SEPT. 9 Youth Must Be Ready to Defend USSR

BULLETIN

A message in Esperanto from Japanese proletarian cultural associations, greeting the youth of America on International Youth Day, has just been received in the Daily Worker office.

MOSCOW, U. S. S. R. (By Mail).—The Executive Committee of the Young Communist International has issued an appeal to the working youth of the world in shops, among the unemployed, in the army and navy, in the fields to join in mighty demonstrations against imperialist war, hunger and capitalist terror on the 1932 International Youth Day, Sept. 9.

"This is a day of struggle for the defense of the only working-class state in the world, the Soviet Union, a day of struggle against the capitalist offensive and the fascist reaction. The International Youth Day has always been a militant day for the fighting youth. On this day the toiling youth demonstrate under the banners of the Communist International and Young Communist International their undying faithfulness to the cause of the working-class revolution, to the cause of struggle for the liberation of all the oppressed from the yoke of capitalism."

War Menace Grows

Tracing the history of this day, rich in traditions of struggle of the revolutionary youth, the appeal points out that "since the last imperialist war, which, according to the assurance of the Socialist Parties and capitalist pacifists, should have been the 'last war,' 43 military conflicts took place and the expenditure of war needs in all the countries has increased by more than 70 per cent as the expense of the working class whose wages have been robbed." And today there are 100,000 Japanese soldiers opposing the masses of Manchuria. There is war in Bolivia. Britain sends battleships to Arabia. And the Japanese troops are being reinforced with the bloody scheme of intervention in the Soviet Union in mind.

Revolutionary Way Out

The toiling youth have two ways: "One is to follow the fascists and the socialists in their attempt to save capitalism; it means starvation and misery, it means to remain slaves forever."

"The other way is the way shown by Lenin, the way followed by the toiling youth of the Soviet Union, the way which leads to Socialism through class struggle through the leadership of the Communist Party, of the Young Communist League, through the overthrow of the capitalist dictatorship."

"At the conference two new bodies of the Workers Ex-Servicemen's League were organized. A veterans' delegation was also elected to attend the special relief session of the Illinois legislature. The delegation will propose an emergency fund to give \$50 immediate relief to each veteran of Illinois, and will also demand the establishment of unemployment insurance."

Revolt Scare Legion Head

PORTLAND, Ore., Sept. 8.—Made despondent by the decline in the membership of the American Legion and by the spreading revolt of the American Legion rank and file against their leaders' betrayal of the fight for the bonus, Henry L. Stevens, national commander of the Legion, announced he would try to rally through changes in the constitution whereby veterans who expose the maneuvers of the Legion to stab the bonus fight in the back will be expelled.

Say Legion Backs Fascists

VIENNA.—The American Legion will send representatives to the Fascist International Congress to be held in "Socialist" Vienna, it was announced this week by the "Telegraf," a capitalist newspaper.

TWO PAGES TODAY!

Central Committee of Communist Party Issues Appeal for Funds

Today's issue of the Daily Worker appears in two pages only. Will its next issues appear at all? This question now faces every reader of the Daily, every friend of the Daily, every militant worker.

Comrades, every one of us must stop and think over what it would mean to the growing struggles of the toiling masses should we be compelled to suspend the publication of the Daily.

We are in the very midst of the election campaign. These last two months before November 8 are indeed the decisive months for our election campaign. Can we do without the Daily? Can we allow our class enemies to rob us of the most precious weapon in the fight for our six main election demands?

We are facing the fourth and the worst winter of the crisis. The fight for bread is growing. The miners are fighting. The steel workers are rising to battle. The farmers are continuing their militant fight against the bankers. The veterans are preparing for sharper and greater battles. A wave of unemployed struggles is beginning to sweep thru the country.

Can the toilers fight EFFECTIVELY without OUR DAILY? Can we ORGANIZE the radicalized workers without the Daily? Shall we allow the servants of the rich, the agents of the bosses in the ranks of the workers to behead the growing wave of struggles?

To merely ask these questions is to become conscious of the great danger facing our class, in the suspension of the Daily.

To lose the Daily is to become disarmed of a most important weapon. The suspension of the Daily for even one single day means the weakening of our leadership amongst the masses. Only the immediate help of the workers can keep the Daily alive. THE DAILY MUST LIVE!

See your shop mates, see your friends, tell them about the Daily. The workers will help. Go to them. Every penny counts. Every minute counts. Don't delay!

RUSH THE FUNDS!

CENTRAL COMMITTEE C.P.U.S.A.

We needed \$5,000 by yesterday. Instead, we received only \$1,231.52. Only sacrifice on the part of New York workers made possible even this two-page Daily Worker, warding off, temporarily, complete suspension.

Our deficit has increased alarmingly. We must make up not only last week's deficit, but raise money to continue this two-page sheet—if possible, to return to four pages. For this the Daily Worker must raise \$7,500—\$3,750 by Monday, Sept. 12, and an additional \$3,750 by Thursday, Sept. 15. This means we must raise AT LEAST \$1,200 EACH DAY of the coming week.

These are the facts. Your duty is clear! Rush all the money collected, THE MINUTE IT COMES IN, to the Daily Worker, 50 E. 13th St., N.Y.C. Our fifth floor office will be open until 11 p. m.

RUSH FUNDS! SAVE THE DAILY!

Socialist Radio Makes Negroes Use Freight Car

"Caucasian Liberals Like Norman Thomas Continue to Use Passenger Elevator"

NEW YORK—Following the objections of white guests to Negroes traveling on the passenger elevators at the Hotel Claridge, in which the socialist radio outlet WEVD is located, the socialist management of the broadcasting station has forced Negro lecturers and entertainers attending its Negro Hour to use the freight elevators.

Ted Nelson, commercial director of WEVD, claims that the Negro speakers and entertainers were "persuaded" to ride on the freight elevators. He said:

"All the Negro entertainers and lecturers are quiet, educated persons, considerate of the sensibilities of others. When they were told that white guests had complained about their using the passenger elevators they at once agreed to use the freight elevators."

RYAN HINTS HE WILL ALLOW CUT

Longshoremen Facing Struggle Sept. 30

NEW YORK—Joseph Ryan, president of the International Longshoremen's Union announced yesterday that when the present wage agreement expires, Sept. 30, the men will be reasonable. He did not say whether the conference of 100 delegates from various ports over which he presides now, will authorize a wage cut. The present wage scale is the result of a cut. It is 68 cents per hour. The shippers demand a new cut. The shippers are organized. Their committee, headed by Oakley Wood, vice president of the Barber Steamship Line, will meet the I. L. A. committee of 12 on Monday.

The Marine Workers' Industrial Union urges the longshoremen not to accept a wage cut, and not to rely on Ryan to fight a cut. They should elect their own rank and file union front strike committee at each pier and be ready to strike.

New Wage Cutting Drive in Anthracite

ALL the forces of the bosses are being prepared for the wage cut drive against the miners in the Anthracite. The anthracite bosses and agents of the John L. Lewis machine in control of the United Mine Workers met in New York City to discuss a 20 to 25 per cent wage reduction, to go into effect immediately as an "emergency measure," to aid the coal industry.

At the same time the newspapers of the anthracite—in Pottsville, Shenandoah, Girardville, Shamokin to Scranton and Wilkes Barre—are helping pave the way for the cut by printing stories to the effect that the mines are soon to open up and run full blast. On the basis of such stories the bosses and the labor fakers are telling the miners it would be better for them if they worked full time at a daily wage of from 20 to 40 per cent less than they now receive while working only a few days a month.

THE anthracite miners, fooled and betrayed time and again by the Lewis machine, are highly skeptical of this attempt to hold up before them a vision of steady work at lower wage rates. And rightly so, for nowhere can there be found markets that will absorb the products of the tremendously productive mines of the anthracite working full blast. In spite of all the capitalist ballyhoo that conditions are improving, in spite of the stock-market juggling, the authoritative financial organs of the capitalist world (New York Times, Wall Street Journal, etc.) are forced to admit that the business index still plunges downward to lower depths. Under such conditions there are no prospects for increased demand for anthracite coal.

This proposed 20 to 40 per cent wage cut means that those miners now working will not work any more time, and will get less for the time they work, which means further beating down their living standards. The tens of thousands of totally unemployed miners will still be without work.

As against the brazen betrayal of Lewis and the deception of the "progressive" who try to keep in office by pitting the unemployed against the employed under the "equalization of work" illusion, the miners of the anthracite must begin at once preparations for fighting against wage cuts and for unemployment relief from the operators and the state. A recent condition in the lower anthracite (Districts 7 and 9 of the United Mine Workers of America) showed that if equal division of work were put into effect each of the 47,000 miners in those districts would get but one and a half days work a month. That would be equalization of starvation. Similar conditions exist in the upper anthracite.

A SUCCESSFUL fight against the wage cut drive now on can be waged only on the basis of the miners themselves setting up their own rank and file committees to prepare the strike and electing rank and file strike committees to lead it. These committees must unite the part-time workers and the unemployed against wage cuts, to fight against any reduction in the wage rate, to demand a guaranteed wage for all employed workers, and to demand immediate unemployment relief and continued payment of unemployment benefits by the bosses and the government.

Only the independent leadership of the workers, ruthlessly excluding the agents of the Lewis machine and the weak, confused, cowardly job holders who call themselves "progressive" leaders but who in reality are effective agents of the bosses inasmuch as their illusions divide the unemployed from the part-time workers.

Such united action of all the miners, employed and part-time, native-born and foreign-born, Negro and white, can defeat the wage cut.

Our Duty in the Bolivian-Paraguayan War

THE war already going on—without any declaration of war—between Bolivia and Paraguay, may seem both "little" and "far away." But it is one of those "little" wars which reflect big struggles of the two greatest imperialist powers, America and England. More, it is one of those imperialist conflicts which "grow" and merge with each other into the world imperialist war now fast approaching. And no worker can be indifferent to a new world war, no matter how "distant" its beginnings appear on the map.

The governments of Bolivia and Paraguay are dominated by foreign imperialism. Bolivia, particularly, is ruled by Wall Street. Standard Oil owns an enormous area of oil-bearing lands in Bolivia. The Guggenheim interests have a monopoly of tin mining and tin is over 90 per cent of Bolivian exports at present. The British are trying to hold and increase their investments and influence, but Wall Street control of the bourgeois-landlord government of Bolivia is virtually guaranteed by treaty. So much so that we can truthfully say that Bolivia would not dare go to war without Wall Street and Washington consent. Therefore, American imperialism is the criminal war maker.

BRITISH imperialism has traditionally dominated Paraguay, which is very much influenced by Argentine diplomacy. But the conflict now arises over disputed claims about which nation, Bolivia or Paraguay, should have the territory known as the "Gran Chaco." This is a large undeveloped area between the two countries. For centuries it has been disputed. The reason that the dispute now becomes war shows how the rivalry between American and British imperialism is becoming acute. It becomes acute at this moment precisely because these imperialisms are in mortal combat for domination of the world market in oil and tin, both war materials both needed in preparation of the approaching world war. Thus the "little" war is a step to the "big" war.

Bolivia has no seaport. And while tin may be transported with some difficulty westward over the Andes mountains, the piping of oil is practically impossible in that direction. The Standard Oil holdings in Bolivia therefore lie mostly undeveloped. If Bolivia can seize the Gran Chaco, then pipe lines down the Pilcomayo River to river ports on the La Platte will allow Standard Oil to pour its competition to the Royal Dutch Shell into Atlantic tankers. Also, the Gran Chaco itself is reported rich in oil. The bourgeois-landlord governments of Bolivia and Paraguay are therefore ready to send tens of thousands of poor peasants and workers to death for the benefit of foreign imperialism. Very definitely, American Standard Oil and American Guggenheim interests are starting a massacre of South American workers and peasants.

EVERY American worker and farmer is robbed one way or another by the lackey hand of the Bolivian government. We must stop all munitions and war materials going to Bolivia and Paraguay! We must expose to American toilers the falsity of Washington's "neutrality," the role of Standard Oil and Rockefeller and Guggenheim as war makers! We must rally them to fight this war, the prelude to world war coming!

Wm. Green Against Federal Jobless Insurance

AFL BILL TO GO BEFORE THE STATES

Postpone All Action; His Bill Will Make Workers Pay

FIGHT FOR INSURANCE! Demand National Law, Without Wage Cuts

WASHINGTON, D. C., Sept. 8.—President William Green of the A. F. of L. announced last July during the meeting in Atlantic City of the executive council of the A. F. of L. that a bill would be drafted for presentation to Congress giving unemployment insurance. Green stated at that time that the workers and the employers would each pay part of the cost, and he "was undecided whether the A. F. of L. would ask the federal government to contribute part of the cost or not."

Green reported this promise at his Labor Day speech in Pittsburgh, admitting the stark misery that hounds millions of unemployed workers, stating that all Hoover's loans to banks and railroads had done nothing for the jobless, and that insurance was all that would save their lives this winter.

Expelled Insurance Advocates. Previous to July, Green and the conventions of the A. F. of L. had condemned insurance in strong terms, and Green's office had conducted a campaign of expulsion against those members of the A. F. of L. unions who advocate it. The building trades council in Minneapolis for demanding insurance.

Now Green states, today, that the charter was lifted from the whole A. F. of L. headquarters has abandoned the idea of federal unemployment insurance. Instead, Green and the state legislatures, Cincinnati convention of the A. F. of L. executive council will ask the A. F. of L. for the states to adopt.

Guaranteed Long Delay. This means years of delay, means that even this bill which would make the workers pay for insurance from their already low wages will only cover part of the country. The fight must go on in and out of the A. F. of L. for national jobs insurance, paid for by the employer and the state, and administered by the unemployed and the employed workers, as provided in the Workers Unemployment Insurance Bill, proposed by the unemployed workers and the Trade Union Unity League and raised by the Communist Party as its central demand in the election campaign.

JAPAN PROVOKING CHINESE MASSES

Nanking Claims Red Army Setback

Japanese forces in Shanghai, Peiping, Tientsin and other Chinese cities continue their provocative attacks against the workers, including armed incursions into the working class districts, raids on workers' homes and arbitrary arrests. This is part of a deliberate policy to provoke the Chinese workers into clashes with the Japanese troops as an excuse to seize China's chief cities and to send an expeditionary force against the Chinese Soviet Republic and the Chinese Red Army.

The Nanking Government yesterday claimed that its forces in Hupah province had won an "important victory" over the Chinese Red Army in the Shaat area. Similar Nanking claims in the past have proved to be paper victories, considered in the farthest brains of the Nanking lackeys of imperialism.
